DETAILED ACTION

Applicants' response, filed 12 December 2006, has been fully considered. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.

Claims 13-16 are currently pending. Claims 1-12 and 17-27 have been cancelled.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 13-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 13 recites at step (c), "for each profile and within said time span, adjusting the baseline by applying a slope factor". There is insufficient antecedent basis in the claim for "the baseline". Correction is requested.

Claim 15 recites, "the system of claim 13 wherein said processor further comprises instructions for performing the steps of". It is unclear where in the steps of the method these limitations are intended to occur. Are these in addition to steps (a)-(e) of claim 13? If so, where do these steps take place? For instance, step (a) of claim 15 recites, "within said span, divides the first axis etc...". It is unclear which span is intended. The span of step (b), the span of step (d) etc.? Clarification is requested.

Art Unit: 1631

Claim 15, step (c), recites, "intersecting each of said segments". It is unclear which segments are intended. Clarification is requested.

Claim 15, step (e), recites, "groups together those profiles having the same total value". It is unclear for what purpose the grouping occurs. Clarification is requested.

Conclusion

No claims are allowed.

The outstanding rejections under 35 USC 101 (utility) have been withdrawn in view of Applicant's arguments regarding chromatograph adjustment.

The outstanding rejections under 35 USC 112, 2nd paragraph have been withdrawn in view of the claim amendments.
